Art Unit: 1756

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harris Pitlick (38,779) on April 23, 2007.

The application has been amended as follows:

In claim 1 at line 22, after "depth" please insert - - and having a pitch of 290 to 350 nm-

-.

In claim 7 at line 28, after "depth" please insert - - and having a pitch of 290 to 350 nm-

-.

2. The following is an examiner's statement of reasons for allowance: The claims now recite the groove pitch which effectively limits the use of the medium to shorter wavelengths and diverges from the teachings of the prior art of record. Specifically, the teachings of the pitch by Berneth et al. and the teachings of the absorption maxima of the trimethine dyes recited in the claims at longer wavelengths by Hamer (460, 485 nm), Fisher et al. (~485 nm, figure 2) and Beilenson et al. (~520 nm, figure 1 (IxII)). While these dyes will absorb at shorter wavelengths recited in the claims (ie. 390-420 nm) based upon the data in the record and the resultant media will be sensitive to these wavelengths, the data in the record suggests that one skilled in the art would not use them, but would rather use the monomethine analogs which would result in a much higher sensitivity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin J. Angebranndt whose telephone number is 571-272-1378. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
